Warnings

This appliance can be used by women aged 16 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall only be performed according to the steps described in the user manual. The appliance is only to be used with the power supply unit provided with the appliance. It must only be connected to safety extra low voltage corresponding to the marking on the appliance.

Important:
Carefully read this manual before using the device and retain this manual for future reference.

Danger:
The stimulation device is intended for external use only. Do not insert into body openings.

sensual stimulator

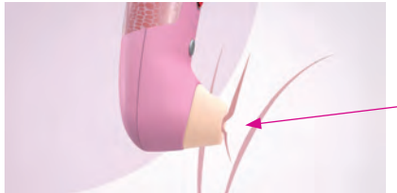
Congratulations on your purchase and welcome to epi24 GmbH!

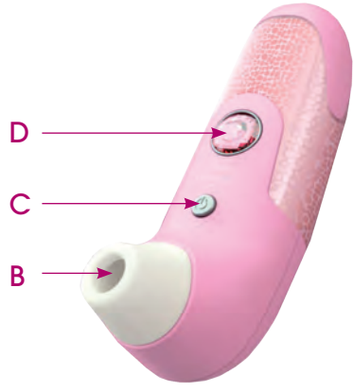
We have made it our task to develop high-quality products which will enrich your life. With the womanizer we present an intimate stimulation device which allows you to discover new possibilities for a perfect stimulation.

Quickguide

Importanrt: Remove any possibly existing bothersome piercing or accessories in the clitoris area

1. Press button „**C**" shortly. Soft modus starts. Treatment head „**B**" flashes.
2. Slightly spread apart your labia in order to expose the clitoris. Position the treatment head „**B**"closely to your clitoris and apply gentle pressure in order for it to be absorbed into the oval opening of the treatment head.





3. If you wish to use the device with more intensity click button „**D**".
   The highest level of intensity will be reached after the fifth click.
4. The device returns into the soft mode when button „**C**" is pressed shortly.
5. Turn off the device: hold button „**C**" for about 2 seconds.

Advice: It is possible to use the stimulation device in combination with water based glide gel or massage oil. Do not use perfumed or alcohol-containing glide gels or massage oils, as they can cause damage to the device.

Important: Once you have discovered the ideal position on the clitoris do not move the stimulation device! The device will automatically silent if the treatment head perfectly flush!

Reinigungs-Tipps

1. Remove silicone treatment head „**B**" and clean with warm water and antibacterial cleaner lotion, dry afterwards.
2. Clean the surface of the womanizer with a soft cloth. Use warm water plus toy cleaner or anti-bacterial soap. Dry the device.
3. Put the purified silicone treatment head „**B**" back on the womanizer device. The device is now perfectly cleaned.

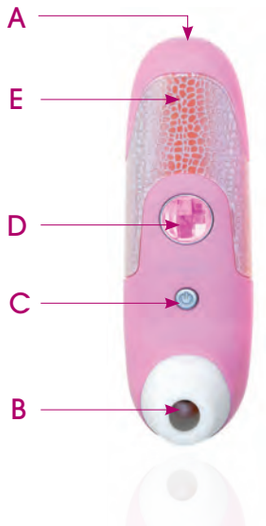
G USB charging unit (optional accessory)

F G



Norm Compliance

This device fulfills all norms concerning electronic magnetic fields (EMF). According to current scientific findings this device is safe to use if handled properly and according to this manual.

Charging

The stimulation device heats up during the process of charging.

Please note:

When unpacking the device its battery will only be charged for a short disposition. It may happen that the battery, due to environmental influences, is completely discharged. It takes up to 4 hours until the stimulation device is fully charged. Afterwards, you can enjoy up to 90 sensual minutes with the device.

The actual time of operation depends on the chosen and applied intensity.

Attention!

Consult your physician before applying the device in any of the following cases:

1. during pregnancy or shortly after childbirth
2. if you suffer from skin irritations or skin disorders
3. if you suffer from an other health realted problems
4. if an allergic reaction occurs while using the stimulation device

Do not stimulate an area for longer than 15 minutes. This stimulation device is not a medical device. If you would like to use the stimulation device in combination with glide gel or massage oil do only use water based fluids. Do not use perfumed or alcohol-containing glide gels or massage oils as they can cause damage to the device.

Cleanse the stimulation device after every application in order to minimize the risks of infection (see chapter „Cleansing“).

Do not expose the stimulation device and the charging unit to direct sunlight or UV light (as for example produced by a tanning device).

Furthermore, do not expose the device to extreme heat.

Do not drop the stimulation device.

Charge and use the device at temperatures between 5°C and 35°C.

Store the device within this range of temperature, too.

Do only use the provided USB charging cable or the optianally available charging unit.

Warning notice

Do never submerge the device in water or any other liquid; do not cleanse it under running water either.

Before using the charging unit for the first time please verify if the voltage indication corresponds with the local line voltage.

Regularly check the stimulation device and the charging unit for possible damage. Do not use the device if any of the components are damaged.

Do only remove the battery when disposing the device. Please make sure that the battery is completely empty.

The device utilizes an integrated lithium ion accumulator and must not be burned, dismantled or exposed to temperatures above 60°C. The battery can explode if overheated.

The device should not be operated by people with physical, sensory or mental disabilities, nor by people with insufficient experience or previous knowledge, unless adequate supervision is provided or detailed instructions on how to use the device are ensured by a person responsible.

Make sure that children are not able to play with the device.

Turn the device off whenever unusual sounds occur and do not continue using it.

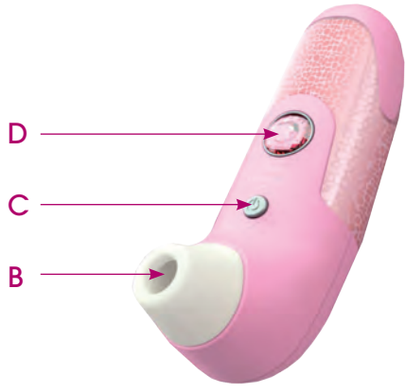
Using the device

Thoroughly cleanse the stimulation device before using it for the first time, after every application and after using it in a different body area in order to minimize the risk of infection.

(see chapter „Cleansing“)



1. Press button „**C**“ shortly in order to turn on the stimulation device.

The treatment head flashes.

In standard mode, the stimulation device starts running slowly. Click button „**D**“ and the intensity increases. The highest level of intensity will be reached after the fifth click. Shortly press button „**C**“ in order to return to the slower standard mode. The device continues running in the slow standard mode.

2. To turn off the stimulation device, hold button „**C**“ for 2 seconds. The device turns off.

Using the device – Stimulation

1. Remove any possibly existing bothersome piercing or accessories in the clitoris area.
2. Press button „**C**" shortly. Soft modus starts. Treatment head „**B**" flashes.
3. Slightly spread apart your labia in order to expose the clitoris. Position the treatment head „**B**"closely to your clitoris and apply gentle pressure in order for it to be absorbed into the oval opening of the treatment head.

Important! Once you have discovered the ideal position on the clitoris do not move the stimulation device!

Advice: It is possible to use the stimulation device in combination with water based glide gel or massage oil. Do not use perfumed or alcohol-containing glide gels or massage oils, as they can cause damage to the device.

4. If you wish to use the device with more intensity click button „**D**". The highest level of intensity will be reached after the fifth click.
5. The device returns into the soft mode when button „**C**" is pressed shortly.
6. Turn off the device: hold button „**C**" for about 2 seconds.

Cleansing

Thoroughly cleanse the treatment head „**B**"before using it for the first time, after every application and after using it in a different body area in order to minimize the risk of infection. Never utilize aggressive detergents, abrasive cleanser, chemical substances or alcohol-based disinfectants, in order to avoid damage to the silicon of the treatment head.

Do not cleanse the treatment head „**B**" with materials or tools (such as objects made out of metal, sharp kitchen utensils or scrubbing sponges) which may cause damage.

1. Turn off the stimulation device.
2. Cautiously remove treatment head „**B**" from the device.
3. Cleanse treatment head „**B**" in lukewarm water using anti-bacterial soap. Rinse off under running water. After the cleansing thoroughly dry the treatment head and apply back onto the stimulation device.

Advice: Use a non-alcoholic disinfectant to minimize the risk of infection.

Clean treatment head „**B**" after every application.

Storage

1. Insert the cleansed stimulation device into its storage box.
2. Keep it in a safe and dry place free of direct sunlight.

Replacement

If you need to replace the stimulation device, the charging unit or the silicon treatment head please contact an authorized retailer.
Attention! The battery of the stimulation device cannot be replaced.

Environmental protection

At the end of its operational life do not dispose of the device into the domestic waste. Hand it in at an official collection point for recycling. By doing so you help preserving the environment. The integrated battery contains substances which may endanger the environment. Always remove the battery before handing it in at an official collection point for recycling. Used batteries should be deposited at an appropriate collection point. If you have problems removing the battery please return the device at any womanizer service center. There the battery will be removed properly and disposed of in an environmentally friendly manner.

Warranty and customer service

If you require further information or if any problems arise please contact an authorized retailer.

As manufacturer of this device we provide a 2-year warranty – at purchaser's option in addition to statutory warranty claims against the seller - starting at the date of purchase.
Within this warranty period we will correct all defects due to material or manufacturing faults, either by means of repair or replacement, at our discretion. This warranty can be invoked in all countries in which this womanizer device is sold with our authorization.

Excluded from this warranty are:

Damages that are the result of incorrect or inappropriate handling, normal wear as well as deficiencies which influence the value or the usability of the device only insignificantly. Interventions of non-authorized epi24 GmbH customer service partners as well as the usage of other than the original womanizer replacement parts lead to an immediate expiration of this warranty.

In warranty cases please send the device together with a proof of purchase to an authorized epi24 GmbH customer service partner or retailer.
